C. A. LANGMAID,

Treasurer.

We hereby certify that we have examined the financial accounts of the selectmen and town treasurer for the fiscal year ending March 1, 1892, and find them correctly cast and supported by proper vouchers.

CHARLES LAKE,

CHARLES G. SAUNDERS,

Auditors.

CHICHESTER, N. H., March 1, 1892.

ANNUAL REPORT

OF THE

SCHOOL BOARD FOR YEAR ENDING MARCH 1, 1892.

The "wheels of time" have brought us again to the summing up of our efforts on behalf of the schools for another year.

The prevailing epidemic, causing so much sickness during the winter past, has by no means spared your board, although it delayed its inflictions till just at the usual time of preparing our report. Fortunately, however, a brief and plain statement will meet all requirements.

So familiar have parents and children already become with our present greatly improved school privileges,—achieved, indeed, under our later school laws,—there is danger, in the fast receding events of any year, when its work is done, of forgetting that it was not always as now, with free text-books for every child, and every remote child having his education provided for as nearly as possible like those of more central parts, and with schoolhouses and teachers provided at the public expense; it should also be remembered how earnestly your servants, the school board of a few years since, contended for the principle of free text-books.

Many points in general were embodied in our report of a year ago. To these we need not now refer. It is to be hoped that no backward step will be taken.

The new text-books furnished last year are, in general, wearing well, their careful handling by the children fully meeting reason-

able expectations. A few additional books, consisting of physiologies, histories, and algebras, have been needed the past year, and purchases to the amount of \$38.34 have been made. A good supply of copy books for one or two terms are also on hand. A still smaller outlay for books will probably suffice for the year to come.

Our schoolhouses are well provided with blackboards, but are deficient in wall maps. Especially should there be one of our own state in each school. In the past year a set of most excellent Language Charts has been procured for every school; cost of same, five dollars each, amounting to thirty dollars. The same are adopted in the schools of Pembroke, Epsom, Pittsfield, and Concord.

In the employment of teachers it has been our aim to get the best, recognizing always in their qualifications that essential quality, aptness to teach. Without publicly passing in judgment upon each separate teacher, we submit in full confidence that our schools as a whole, for the past year, have been eminently successful. In no case has there been any but faithful, painstaking service rendered.

It sometimes has been said, "Give us a No. 1 teacher, even if we can't have but half the number of weeks." But all things have a "golden mean." We have paid fair prices, and our corps of teachers procured will be hard to excel in any year.

Three terms have been taught, aggregating twenty-four weeks. For the first term the usual six schools in town were maintained eight weeks; but in school No. 5 (at the "Horse Corner") for the fall and winter terms there were only four children of school age. For these seasons of the year, a school could not be maintained at much less than \$6 per week. The parents as well as the board saw the impracticability of so small a school; and it was just as impracticable, owing to cost, and no one to assume the task, to have procured transportation to any of our other schools, and still the children were entitled by law to their share of school privileges. By conference with the parents an understanding was reached that they should undertake their children's schooling for these terms, for the average cost of tuition per scholar in our other schools. Two of the children were there-

fore sent to a Canterbury school, and two others to different schools in Concord. The expense of this arrangement for these two terms of sixteen weeks, upon our school fund, was \$61.76 ; whereas, to have had a school the two terms would have cost nearly a hundred dollars, a saving of nearly forty dollars. One scholar was also provided for on the same basis in "New Dover" section, but for three terms instead of two, costing \$23.16. Total, \$84.92. Part payment of same (see treasurer's report), \$33.22. Balance due unpaid, \$51.70.

That there are outlying sections of our town is probably not the fault of any one, and it would seem but the part of selfishness for the favored centers of any community to desire to discriminate against the school privileges of the children of any other section.

It is a hard matter to determine in advance just what combinations of schools and sections should be made to lessen our number of schools and therefore their current expenses, but some changes in the school population are every year occurring, so there is no telling what any five years may bring of change. Every year must therefore be met according to its needs. Thirty weeks of schooling for the year seem none too much as compared with other towns of our means and capacity. With this view, it is the opinion of your board, and many friends of education, that \$500 should be raised for the coming year for school purposes, including books and the present deficit, in addition to what is required by law.

For receipts and expenditures for the past year, see treasurer's report herewith appended. Also for additional details see statistical table.

Respectfully submitted.

OLIVER DRAKE,
GEORGE M. MUNSEY,
CATHERINE M. LAKE,

Board of Education.
